

## What we do

Put simply – we build safe workplaces. We partner with organizations like yours to transform work environments and create inclusive cultures. Our premier program, BASE, focuses on sexual harassment prevention, intervention, and response.

Our customizable BASE packages can include:

- Interactive trainings
- Personalized consulting
- Incident support services

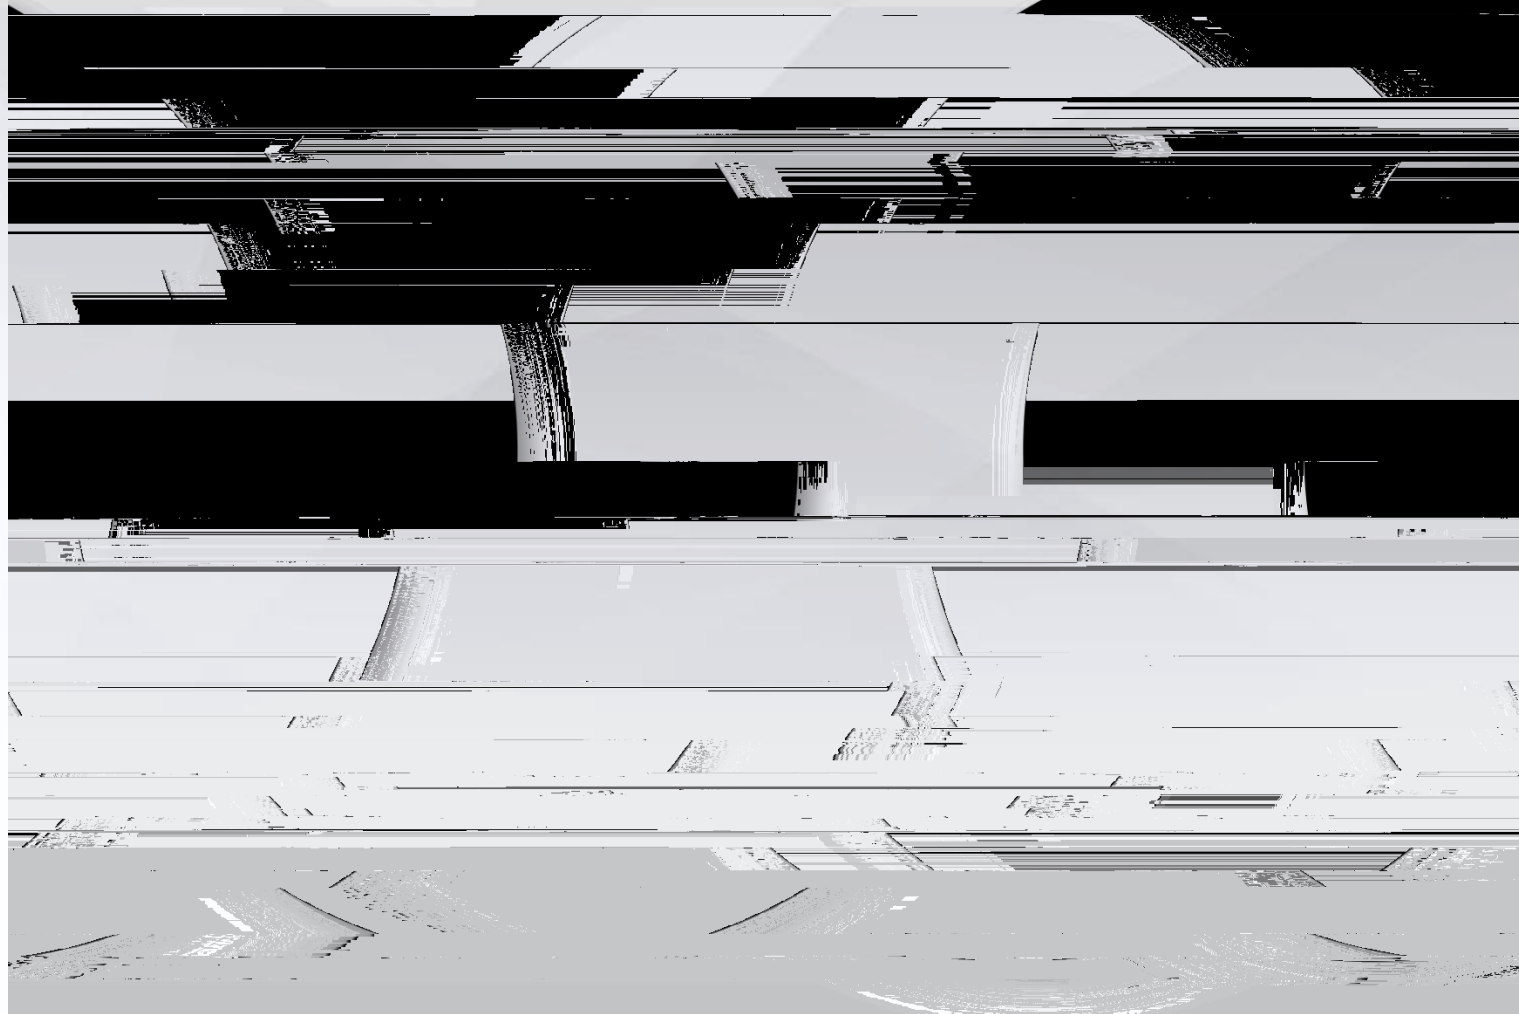

## What does BASE cover?

Through our consulting, incident support, and interactive trainings for employees and supervisors, our SAFE coaches dive into:

- Defining and identifying unlawful sexual harassment
- Breaking down “gray areas” – including flirting and dating in the workplace

Helping organizations build healthy, respectful cultures  
*Preventing Sexual Harassment in the Workplace*

## 6. Consent in the Workplace

‡ If the person is able, get verbal consent that aligns with body language.

‡ If someone says no, **GRQW** personally. Say okay & move on.

‡ *Platinum Rule:* Treat others as they would like to be treated.

‡ If you make a mistake & cross a boundary-- apologize **GRQW**.
